

AWAY WITH LYMPHOMA!

Call for proposals for innovative research on lymphoma

The Lymph&Co Foundation

Lymph&Co is funding innovative scientific research from basic/preclinical research through translational research to treatment and prevention of lymphoma by outstanding researchers worldwide. In addition, we aim to generate attention and publicity for all types of lymphoma. Lymph&Co supports research with three types of grants, i.e. the Lymph&Co Research Grant, a Consortium Initiation Grant and the Paul Fentener van Vlissingen Lymphoma Fellowship.

Call for research proposals

The Lymph&Co Foundation intends to fund one or two research projects in 2020.

There will be a two-stage submission procedure for applications: pre-proposals and full proposals. The call is scheduled to open on **7 May 2019**. The deadline for submitting the pre-proposals is **15 July 2019**. The Scientific Board of Lymph&Co will carry out a scientific evaluation according to specific evaluation criteria. Based on this evaluation, selected applicants will be invited to submit a full proposal (deadline for full proposals: **20 November 2019**).

More information on the emphasis of the call, timeline, eligibility and funding prerequisites is available on the research-and-support section of the Lymph&Co website. Proposals can be submitted using the preproposal form, which can be downloaded from the website.
